Meeting Summary:

South American Subbasin (SASb) Groundwater Sustainability Agency (GSA) Working Group

Meeting #1 – May 15, 2020

PARTNERING MEETING SUMMARY

1. Meeting was called to order at 9:00 a.m.
2. Roll call
3. Welcome (Ellen Cross, Strategy Driver, Facilitator)
4. Meeting Content:
 - Introduced the collective team who will develop and deliver a GSP for the SASb which complies with the Sustainable Groundwater Management Act (SGMA) and is developed through effective engagement with stakeholders.
 - Discussed the level of effort by all parties involved, including the Working Group members, and expectations to deliver a SGMA-compliant GSP in a timely manner.
 - Identified success factors to deliver a GSP unanimously approved by all GSA Boards.
 - Identified major barriers to success and potential mitigation measures. This is an ongoing activity through the GSP development process.
 - Developed Guiding Principles and Partnering Commitment for all GSP team members to commit to and sign.
5. Supporting Materials (Attached)
 - a. Draft Partnering Commitment Document for Signature
 - b. SGMA GSP Development - Process and Schedule (PowerPoint)
6. Concluded meeting at 12:00 p.m.
